HOW TO INSTALL LOVE

Customer Service Rep: Yes, Ma'am, how can I help you today?

Customer: Well, after much consideration, I've decided to install love. Can you guide me through the process?

CS Rep: Yes, I can help you. Are you ready to proceed?

Customer: Well, I'm not very technical, but I think I'm ready to install now.

What do I do first?

CS Rep: The first step is to open your HEART. Have you located your HEART ma'am?

Customer: Yes I have, but there are several other programs running right now. Is it okay to install while they are running?

CS Rep: What programs are running ma'am?

Customer: Let's see, I have PAST-HURT.EXE, LOW-ESTEEM.EXE, GRUDGE.EXE, and [RESENTMENT.COM](#) running right now.

CS Rep: No problem. LOVE will gradually erase PAST-HURT.EXE from your current operating system. It may remain in your permanent memory, but it will no longer disrupt other programs.

LOVE will eventually overwrite LOW-ESTEEM.EXE with a module of its own called HIGH-ESTEEM.EXE. However, you have to completely turn off GRUDGE.EXE and [RESENTMENT.COM](#).

Those programs prevent LOVE from being properly installed. Can you turn those off ma'am?

Customer: I don't know how to turn them off. Can you tell me how?

CS Rep: My pleasure. Go to your Start menu and invoke FORGIVENESS.EXE. Do this as many times as necessary until GRUDGE.EXE and [RESENTMENT.COM](#) have been completely erased.

Customer: Okay, done. LOVE has started installing itself automatically. Is that normal?

CS Rep: Yes. You should receive a message that says it will reinstall for the life of your HEART. Do you see that message?

Customer: Yes I do. Is it completely installed?

CS Rep: Yes, but remember that you have only the base program. You need to begin connecting to other Heart's in order to get the upgrades.

Customer: Oops. I have an error message already. What should I do?

CS Rep: What does the message say?

Customer: It says "ERROR 412 - PROGRAM NOT RUN ON INTERNAL COMPONENTS." What does that mean?

CS Rep: Don't worry ma'am, that's a common problem. It means that the LOVE program is set up to run on external HEARTS but has not yet been run on your HEART. It is one of those complicated programming things, but in nontechnical terms it means you have to "LOVE" your own machine before it can "LOVE" others.

Customer: So what should I do?

CS Rep: Can you pull down the directory called "SELF-ACCEPTANCE"?

Customer: Yes, I have it.

CS Rep: Excellent. You're getting good at this.

Customer: Thank you.

CS Rep: You're welcome. Click on the following files and then copy them to the "MYHEART" directory: FORGIVE-SELF.DOC, REALIZE-WORTH.TXT, and ACKNOWLEDGE-LIMITATIONS.DOC. The system will overwrite any conflicting files and begin patching any programming. Also, you need to delete VERBOSE-SELF-CRITIC.EXE from all directories, and then empty your recycle bin afterwards to make sure it is completely gone and never comes back.

Customer: Got it. Hey! My HEART is filling up with new files. SMILE.MPG is playing on my monitor right now and it shows that PEACE.EXE, and [CONTENTMENT.COM](#) are copying themselves all over my HEART. Is this normal?

CS Rep: Sometimes. For others it takes a while, but eventually everything gets downloaded at the proper time. So, LOVE is installed and running. You should be able to handle it from here. One more thing before I go.

Customer: Yes?

CS Rep: LOVE is freeware. Be sure to give it and its various modules to everybody you meet. They will in turn share it with other people and they will return some similarly cool modules back to you.

Customer: I will. Thanks for your help. By the way, what's your name?

CS Rep: You can call me the Divine Cardiologist, also known as The Great Physician, but most call me God. Most people feel all they need is an annual checkup to stay heart-healthy, but the manufacturer (Me) suggests a schedule of daily maintenance for maximum efficiency. Put another way ... keep in touch.

"Natural forces within us are the true healers of disease."

Now here is how you install it world wide.

RESPECT FOR SELF AND OTHERS

The tenets of respect for self and others is a easy one to understand, but the implementation and practice are very complex. The simple tenet is, if it is disrespectful to self or others don't do it. What could be more simple to understand? It is basic manners, basic tolerance, and basic civil behavior. It is not rocket science, if it disrespects other's rights, other's property, or even the environment in which we live as to threaten our well being, then don't do it. Respect is the willingness to show consideration. To have feelings for others, to care about more than yourself, to care about your safety in protecting the environment, to care about other's property. For many this was taught to them as a given, in the 1950's. It was basic manners.

All too often today many find it impossible to bring themselves to have the willingness to show consideration. They think in the here and now, the effect to self, the effect on their world view. We as a society teach our children to not respect other it has become part of our culture. As a result of the non-interaction, obesity has become a epidemic among our youth, they do not even leave their house anymore. The youths today are taught to not consider others, that you should only think of yourself. It makes it easier for them and others to not have to consider others as a person, but only separate entity objects. It goes back to willingness to show consideration of others. You have the Columbine instances to show the effect of this separation, and the lack of teaching respect of others, the willingness to show consideration of others. To follow the laws you have to have respect for the law and have respect for those making the laws.

Many on the side of unwillingness to show consideration of others, will ardently say respect is something you must earn, not something one loses. In the willingness to show consideration of others, everyone starts out with being respected, and only when they do something to lose that respect, are they not treated with respect. This is a foreign concept for many on the intolerant side, who only think of themselves and their world view, and how the world should stagnantly be adhered to. Your Governments have to be set up to respect you, for you to respect it. If some in your society are treated as second class subhuman entities and not equal human beings, I would hope that government looses respect of those that have a willingness to show consideration of others.

When one group is given special rights to marry who they choose, not be harassed at their jobs, have the right to live with their chosen spouse and have the right to consummate that marriage, and the other groups do not have this right, it is not a respectful government. A government that does not respect its people, surely should not be respected, it has lossed respect. A government that is unwilling to speak out against people being killing for no other reason than who they have an attraction for, should not be respected (as in the case of Saudi Arabia). A government that has openly formed a sexual apartheid cannot be respected. Governments have a responsibility to respect all under their charge. To not singled out some to be chattel of the government. It is not rocket science, it is respect of others. For all in the society to respect the government the government must respect them. The tenets of respect are very easy, if it is disrespectful to self or others, don't do it. The USA needs to stop denying marriage to intersexuals and homosexuals, it's that simple. If there is no same sex marriage then intersexuals cannot marry at all.

Beautiful! And very well stated.

Thank you.
