Dear Members:

I doubt this will concern our older members. However, I've heard a number of younger people within the transgendered and transsexual communities discussing silicone injections to acquire a more feminine physique.

Besides being illegal in the United States, it's very dangerous. So, if you've been considering silicone injections, please review the following website:
<http://www.tsroadmap.com/early/silicone.html>

You owe it to yourself to be very well informed before making a decision to engage in a technique that could lead to death or disfigurement.

With Love,

Roberta Angela Dee
